

OVERVIEW

The housing project is conceptualised within the Basic Needs Programme and executed through Innv8e's sister company, The Amari Property Group. The project aims to address shortages and backlogs in the construction and provision of ultra-low cost to affordable housing across the 14 regions of Namibia.

The target is set for the construction of 20,000 ultra-affordable and affordable houses in integrated communities that contain facilities for enterprises, institutions, schools and public open spaces.

Through its network of technical and professional experts, Amari Group has the ability to plan and develop functional and sustainable communities that include spaces for enterprises (including small and microenterprise facilities), institutional and educational erven, as well as shared recreational spaces. The ability of communities to provide employment opportunities will increase their sustainability.
