

INNv8E

CRAFTING SOCIAL + ECONOMIC COALITIONS

**Challenge accepted. Challenge embraced.**

We are unbowed by barriers, obstacles and challenges. Solutions to the world's greatest issues are Innv8e's greatest opportunities. And yours.

We face down problems by joining forces in social and economic coalitions. We use design thinking to ensure that our solutions are appropriate and workable. We use a social enterprise business model to ensure our own sustainability.

ABOUT US.

We see the world differently

We value curiosity, agility and a can-do, goal oriented attitude that gets the job done.

Our vision

is to solve our most pressing socio-economic challenges.

Our mission

is to do so through a social enterprise business model that matches resource mobilisation and system leadership with design thinking that produces informed solutions, smart partnerships and effective action.

Our worldview

Like you, we know that shared value coexistence is no longer optional – it has become a necessity. It makes sense to design commercially successful projects that create share value between stakeholders, communities, and government.

Who and where we work

We work in and with the following sectors:

- Community Sector
- Development Sector
- Public Sector
- Private Sector
- Government Sector
- Political Sector

**WHO WE
ARE**

www.innv8e.com

WORK WITH US.

PROJECTS.

Our portfolio focuses on creating commercial businesses, programmes, projects, products, brands and services.

Our participation in projects, our own or clients', is ring-fenced by commercial viability and socio-economic impact.

BRIEF US.

Brief us on a tailor-made project. We listen with open minds and find, implement and administer the best possible solutions.

COLLABORATE.

Partnerships—technical, financial and in-kind—are the heartbeat of our existence.

Our collaborative projects engage with leaders to find consensus on a wide range of views, then mobilise resources and implement solutions.

TRADE.

We provide sourcing, commodity and logistics solutions for toilets and food for clients or Government programmes.

PARTNER.

Brief us on a project you see us co-creating with you.

BUSINESS PROCESS.

Innov8e is a social enterprise. Our purpose is to create socially valuable outcomes in the CSR, development and manufacturing spaces. Because we are business-oriented, we are able to sustain our operations from profits and reinvest in expansion of our company and projects.

UNDERSTANDING THE CONSENSUS. TSA PROCESS

PLANNING. INN8E PROCESS

PROGRAMME 1.

THE SOCIAL AGENDA PROGRAMME.

The Social Agenda Programme aims to coordinate the sectors of society through well-crafted projects, engineered to drive synergy, information sharing, networking & impact in the pursuit of advancing social enterprise & social entrepreneurship in development-related matters in society.

PROJECTS

The Social Agenda Projects ENGAGE

The Sessions: The CEO's Circle,
Citizens Connect & General Sessions

THE PRESSKIT: SHOW & TELL

The CSR Guide & Directory
The Social Agenda Newspaper
The CSR Show

GAME CHANGERS

The CSR Summit & Awards

TEACH & BUILD

The CSR Workshops

THE NAMIBIAN HOUSE

The Social Agenda Brand Campaign

PROGRAMME 2.

THE BASIC NEEDS PROGRAMME.

The Basic Needs Programme develops business and system delivery models for Basic Needs, particularly in the areas of Toilets, Spaces, Regional development, Enterprise Development and Well-being.

The Programme tackles the the provision of Basic Needs and to create a new world social blueprint by solving problems using business principles.

The Basic Needs Programme is aimed at developing a cohesive model and delivery scheme.

PROJECTS

The Toilet Project

By offering a sustainable, inexpensive, locally developed toilet (Dry and Waterborne) that, we contribute to addressing the present problem of the backlog of 150,000 toilets as described in the National Sanitation Strategy.

We focus on local manufacturing and re-engineer the value chain to address job creation, revenue share and completing existing National efforts.

The Governors Regional Development Project

This Project is an initiative that structures and match resources to the community needs, specifically in the fourteen (14) regions, to build regional capacity.

The project purpose is to create regional capacity with a framework to discharge CSR and Social Enterprise for sustainable impact. We actively source technical, financial and in-kind partnerships.

The Spaces Project

This Project is a social impact investment initiative for Local Authorities designed by us and driven in partnership (financial and technical) with private, development and other sectors with the local authorities as beneficiaries.

We rehabilitate Public open spaces, parks and informal trading space according to public open spaces policies

PROGRAMME 2.

THE BASIC NEEDS PROGRAMME.

The Basic Needs Programme develops business and system delivery models for Basic Needs, particularly in the areas of Toilets, Spaces, Regional development, Enterprise Development and Well-being.

The Programme tackles the the provision of Basic Needs and to create a new world social blueprint by solving problems using business principles.

The Basic Needs Programme is aimed at developing a cohesive model and delivery scheme.

PROJECTS

The Wellbeing Project

The project fosters wellbeing with information and activities that promote beneficial activities and outcomes in the fields of nutrition, sports, wealth, general wellbeing and skills development.

The Enterprise Development Project

The project establishes a framework for entrepreneurs to establish and successfully operate smaller social enterprises by highlighting opportunities and providing empowering knowledge.

The Housing Project

As a sister enterprise of Innv8e, Amari Group is targeting construction of 20,000 ultra-affordable and affordable houses in integrated communities that contain facilities for enterprises, institutions, schools and public open spaces.

The Data Project

This newly conceived project promotes access to much needed national development data, strategies, programmes and plans for the CSR, CSI and development projects of the private and development sectors.
